ESD DISPOSABLE PRODUCTS

Clean Room

Antistatic ESD Disposable Cleanroom Coverall Bracelet Set

Order Code: TKT-9100

Weight: 63 gr./m²

Colour: White

Design: Breathable, Laminated film coated microporous, Resistant to tearing, abrasion and pilling, protects against solvents.

Fits perfectly on the body thanks to the elastic waist and wristband parts. It has antistatic properties and protects against liquids with chemical concentrations less than 40%.

Standard: EN 61340-5-1

Order Code

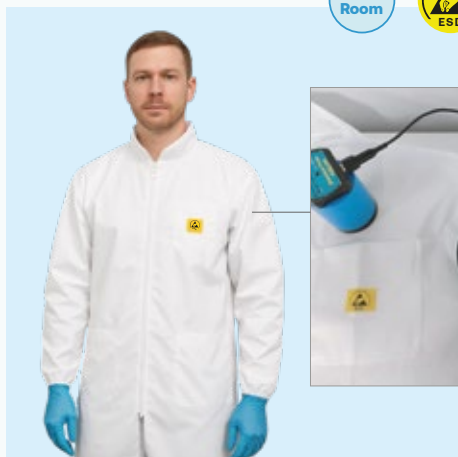

TKT-9100.M

Size

It is a clothing that contains electrostatic sensitivity, in full or semi-electronic production areas, assembly facilities, chemical factories. In short, which requires EPA and clean room areas and helps to keep the environment clean for the personnel, and also prevents the accumulation of static charge on the personnel with its antistatic feature. The product has TYPE-5 and TYPE-6 and specific ISO standards.

Clean Room

ESD Cleanroom Disposable Lightweight Apron

Order Code: EDC-6501

Model: Zipped and 3 Pockets

Weight: 63 gr./m²

Colour: White

Fabric: PP Spunbond + PE Film (Laminated)

Standard: EN 61340-5-1

Order Code

EDC-6501.M

Size

Made from lightweight, antistatic materials; this apron offers excellent electrostatic discharge (ESD) protection and helps keep your workspace free from contamination. Complies with EN 61340-5-1.

Disposable Cleanroom Overshoes

Order Code: TOG-9200

Size: Standard

Colour: White

Standard: EN 61340-5-1

Disposable white overshoes for cleanrooms. It does not form particles, and has antistatic properties.

Disposable Antistatic ESD Overshoes

Order Code: DSC-3300

Package: 1 Pack = 100 Pieces = 50 Pairs

Size: Standard

Colour: Blue

Standard: EN 61340-5-1

These overshoes provide reliable electrostatic discharge (ESD) protection, ensuring safety in ESD-sensitive environments. Designed for easy use and durability, they offer an effective solution for maintaining ESD compliance.

Disposable Cleanroom Boot Covers

Order Code: TSC-9000

Design: Elastic, non-slip boots

Size: Standard

Colour: White

Standard: Clas10 - Clas 1000 (ISO4 - ISO6)

Disposable white shoe covers for cleanrooms. It is one size and can be worn on all foot sizes with its elastic structure.

Disposable Heel Strap

Order Code: DHS-2554

Package: 100 pcs.

Standard: EN 61340-5-1

Colour: 

Designed for single-use, these heel straps provide effective electrostatic discharge (ESD) protection in sensitive environments. Easy to use and cost-effective, they ensure safety and compliance in ESD-sensitive areas.

Disposable Antistatic ESD Nitrile Gloves

Order Code: NG-2561

Material: Nitrile

Package: 100 pieces

Size: S-M-L-XL

Standard: EN 374-1:2016/TYPER B (JKTP)

EN 420 2003+A1:2009

EN ISO 374-5:2016

blue

Order Code
NG-2561S
Size

Disposable powder-free nitrile examination gloves. It is a nitrile glove with minimum allergy risk. Suitable for jobs. AQL 1.5: Laboratory analysis, food processing, chemical industry, cleaning, etc.

Disposable Cleanroom Arm Sleeve

Order Code: DS-9000

Fabric: Tyvek, non-steril

Size: Standard

Colour: White

Standard: EN 61340-5-1

Cleanroom arm sleeves help prevent contaminants from entering a controlled environment, and the sleeves also help protect workers from powders, dry particulates, and liquid splash.

Disposable Conductive ESD CleanRoom Overboots

Order Code: COB-6360

Design: Conductive PVC, Dust-Lint-free ESD fabric + Nylon strap and autoclavable buckle, soft and flexible, Doesn't leave marks on the ground, 5mm grid design distance below the kneecap.

Size: XS-XL

Order Code
COB-6360.XS
 Size

Antistatic ESD Palm Painted Gloves

Order Code: PCG-4710

Fabric: Made with Carbon and Nylon

Design: Polyethylene coated on palm, with nonstat logo, ESD and CE symbols, unisex

Size: S-M-L-XL

Standard: EN 61340-5-1, EN388:2003

Good for transporting electronic gadgets, circuit boards and components. It ensures the protection of products from various discomforts or accidents caused by static electricity. Suitable for mounting LSI, VLSI, semiconductors as well as computers and precision devices.

Antistatic ESD Fingertip Painted Gloves

Order Code: PCG-4700

Fabric: Made with Carbon and Nylon

Design: Polyethylene coated on palm, with nonstat logo, ESD symbol, unisex

Size: S-M-L-XL

Standard: EN 61340-5-1, EN388:2003

It is used to protect both the operator and the product during assembly. It provides protection from the effects of static electricity when transporting electronic devices and working with PCBs and components. It is used in working with antistatically treated semiconductors, microprocessors and compact disks.

Conductive Elastic Fit Gloves

Order Code: CEG-4310

Fabric: Copper yarn and nylon

Design: Good elasticity and minimize the sweat buildup, unisex

Size: S-M-L-XL

Standard: EN 61340-5-1, EN388:2003

Suitable for managing electronic devices, circuit boards, and parts. Protects items from various static electricity-related disruptions or mishaps. Surface semiconductors, microprocessors, and compact disks are antistatically treated.

Static Dissipative Latex Cots

Order Code: FC-5005

Heavy metals: below detection limit; RoHS compliant

Material: 100% Biodegradable Natural Latex

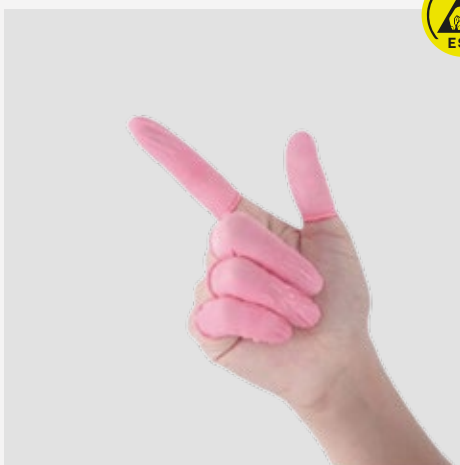

Size: Standars

Package: 1000 pieces

Cleanroom compliance: ISO 6 – ISO 8

Standard: IEC 61340-5-1:2016

Suitable for managing electronic devices, circuit boards, and parts. Protects items from various static electricity-related disruptions or mishaps. Surface semiconductors, microprocessors, and compact disks are antistatically treated.

Static Dissipative Latex Cots

Order Code: FC-2589

Heavy metals: below detection limit; RoHS compliant

Material: 100% Biodegradable Natural Latex

Size: Standars

Package: 1000 pieces

Cleanroom compliance: ISO 6 – ISO 8

Standard: IEC 61340-5-1:2016

Suitable for managing electronic devices, circuit boards, and parts. Protects items from various static electricity-related disruptions or mishaps. Surface semiconductors, microprocessors, and compact disks are antistatically treated.

Static Dissipative Latex Cots

Order Code: FC-4200

Heavy metals: below detection limit; RoHS compliant

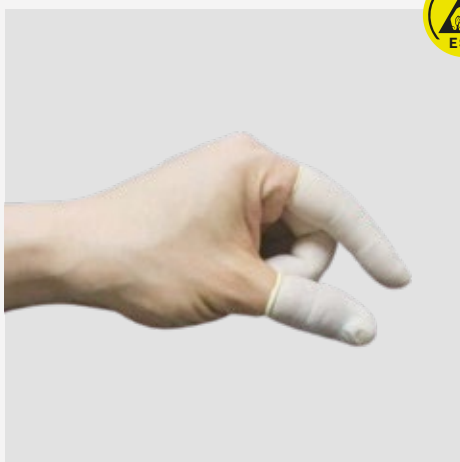

Material: 100% Biodegradable Natural Latex

Size: Standars

Package: 1440 pieces

ESD SHOES

Antistatic ESD S1P Shoes

ESD shoes are also known as electrostatic dissipative shoes. The purpose of this type of footwear is to reduce static discharge and consequently prevent ESD damage in the workplace. Complies with EN 61340-5-1.

Specifications

Order Code: DFN-65.XX

Upper: Abrasion resistant on Micro suede and 3D Air

Lining: 100% Breathable, abrasion resistant and eucalyptus fragrant 3D Air

MToe Protection: Composite toe protection, impact resistance to 200 Joule

Insole: Antibacterial and arch supported, removed ActionFlex insole

Size: 35-47

Weight: 450gr-470gr

Standard: EN 1149-1-3-5 , IEC 61340-5-1

ANTISTATIC BAGS

Antistatic ESD Lockless Metalized Bag

Antistatic metalized bag has been developed especially to protect ESD sensitive products from the effects of static electricity while storing and packaging them. 100 pieces in a pack.

Order Code: MB-50XX

Thickness: 78 micron

Material: Inner layer is polyethylene, middle layer is metal, outer layer is polyester

Resistance Values: Inner and outer layers ($<10^{11} \Omega$)

Resistance Values: Middle layer ($<10^2 \Omega$)

Design: Open mouth, lockless, heat sealable, semi transparent

Piece: 100 pieces in a pack

Standard: EN-61340-5-1

3 LAYERS

SEMI-TRANSPARENT

HEAT SEALABLE

Antistatic ESD Ziplock Metalized Bag

Antistatic ziplock metalized bag has been developed especially to protect ESD sensitive products from the effects of static electricity while storing and packaging them. 100 pieces in a package.

Order Code: ZMB-50XX

Thickness: 78 micron

Material: Inner layer is polyethylene, middle layer is metal, outer layer is polyester

Resistance Values: Inner and outer layers ($<10^{11} \Omega$)

Dissipative Antistatic Pink Bag Lockless & Ziplocked

Antistatic Pink Bag is designed to protect sensitive electronic components from static electricity. These bags are ideal for use in environments where protection is crucial, such as electronics manufacturing, assembly lines, and laboratories. The lockable feature ensures the contents remain secure, providing added protection and convenience.

Order Code: DB-50XX

Colour: Pink

Piece: 100 pieces in a pack

Standard: EN-61340-5-1

Metallized Bag with ESD Moisture Barrier

EMI/RFI moisture barrier bags maintain vacuum and provide a protective barrier against moisture and water vapor. Made of multilayer metallized film, used for vacuum packaging and thermal insulation. 100 pieces in a package.

Order Code: MBB-5XXXX

Thickness: 150 micron

Resistance Values: $<10 \wedge 11 \Omega$

Design: Opaque (Silver)

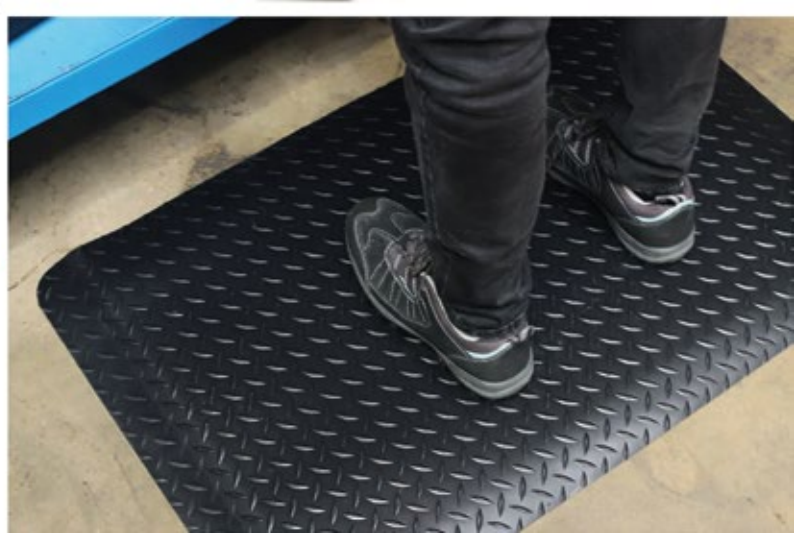

Piece: 100 pieces in a pack

Standard: MIL-B-81705C type 1 class 1

GROUNDING PRODUCTS

ANTISTATIC ESD WRISTBAND & CORDS

ESD Antistatic Wristband Set with Banana Crocodile

Order Code: WS-3150

Cord length: 1.8m

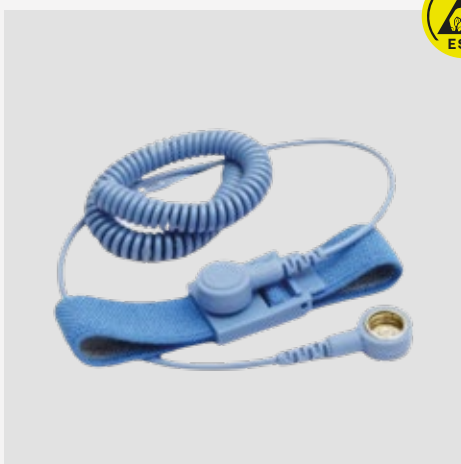

Cord Type: Spiral Resistance

Cord Connection Type: 10 mm + banana crocodile

Value: $1\text{M}\Omega$ 10^6

Standard: EN 61340-5-1

Colour: 

ESD Antistatic Wristband Set with Snap Fasteners

Order Code: WS-3180

Cord length: 2,4m

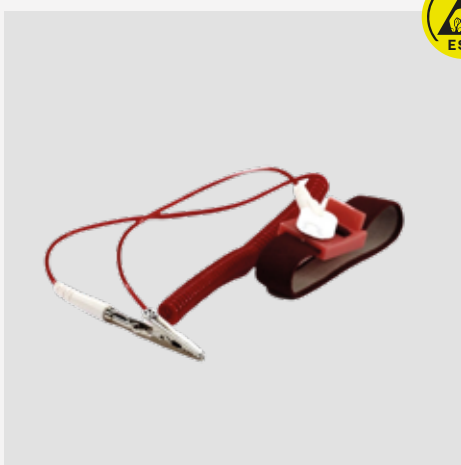

Cord Type: Spiral Resistance

Cord Connection Type: 110 mm + snap on both ends

Value: $1\text{M}\Omega$ (10^6)

Standard: EN 61340-5-1

Colour: 

ESD Antistatic Antiallergic Bracelet Set

Order Code: WS-5017-R

Cord length: PU Black grounding cord 1.8m

Cord Type: Spiral Resistance

Cord Connection Type: 10mm in length . snap x crocodile banana

Value: $1\text{M}\Omega$ 10^6

Standard: EN 61340-5-1

Colour:    

Order Code
WS-5017-R
Colour

This product, which is indispensable for EPA areas, is used to safely ground personnel working with sensitive electronic components and equipment. Antistatic wristbands are used together with grounding cord (CC). The strap cord is also connected to the table terminal (EBP) and completes the process of transferring static electricity from the body to the ground. In this way, the person in the working area is isolated from static electricity and its dangers.

ESD Antistatic Wireless Bracelet - Dark Red

Order Code: WS-5105

Belt Specifications: Elastic fabric tape with a thin conductive fiber. The fibers are made of carbon-structured rubber. The belt is connected by a stainless steel plate.

Standard: EN 61340-5-1

Colour: ●

It works on the principle of static voltage balance. It eliminates electrostatic effects and provides static voltage balance. Discharges the static charges wirelessly by touching the grounding point thanks to the screw on it.

ESD Antistatic Wireless Wristband - Blue

Order Code: WS-3170

Elastic fabric tape with a thin conductive fiber. The fibers are made of carbon-structured rubber. The belt is connected by a stainless steel plate.

Standard: EN 61340-5-1

Colour: ●

It works on the principle of static voltage balance. It eliminates electrostatic effects and provides static voltage balance. Discharges the static charges wirelessly by touching the grounding point thanks to the screw on it.

ESD Antistatic Metal Bracelet Set - Blue

Order Code: WMS-3190

Belt Specification: Long-lasting and durable, metal, Swatch band, 2.4m length, spiral

Standard: EN 61340-5-1

Cord Connection Type: snap x crocodile+banana male (10mm)

Colour: ●

It works on the principle of static voltage balance. It eliminates electrostatic effects and provides static voltage balance. Discharges the static charges wirelessly by touching the grounding point thanks to the screw on it.

ESD Antistatic Wristband Cable

Order Code: CC-3150

Cord length: 2.4m

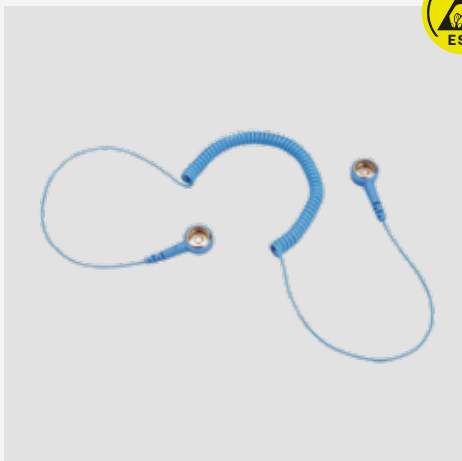

Cord Type: Spiral

Cord Connection Type: Wristband attachment point is 10mm snap (Cable only)

Value: $1M\Omega$ (10^6)

Standard: EN 61340-5-1

Colour: 

ESD Antistatic Wristband Cable

Order Code: CC-3100

Cable Specifications: Spiral cable with 10mm snaps at both ends

Standard: EN 61340-5-1

Colour: 

It is suitable for wristbands worn on the arm

ESD Antistatic Wristband Cable

Order Code: CC-2022

Tips: 10mm. + banana crocodile connection

Cable Specifications: Spiral cable with 1.8m

Standard: EN 61340-5-1, IEC 61340-5-1

Colour:  

It is suitable for wristbands worn on the arm

Under Table Earthing Terminal (3 x 10mm. Stud)

Order Code: EBP-5014

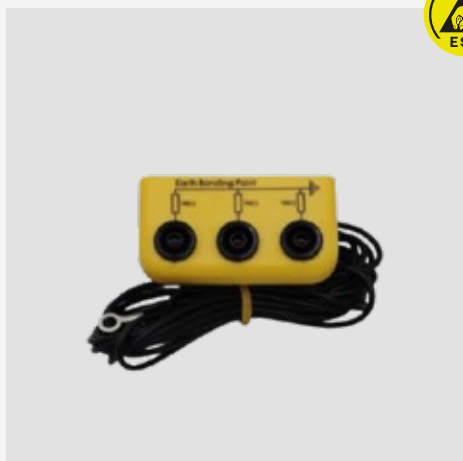

Dimensions: 70 x 38 x 24 mm.

Inputs: 3 x 10mm. stud inputs

Standard: EN 61340-5-1

Colour: 

L-shaped under table grounding terminal with 3 pcs 10mm. stud inputs, 1Mohm. resistance ESD protected supplied in pink bag.

Under Table Grounding Terminal (3 x Banana)

Order Code: EBP-5016

Dimensions: 70 x 38 x 24 mm.

Inputs: 3 banana socket inputs

Standard: EN 61340-5-1

Colour: 

L-shaped under table grounding terminal with 3 banana socket inputs, 1Mohm. resistance ESD protected supplied in pink bag.

Under Table Earthing Terminal (2 x Banana + 2 x 10mm.)

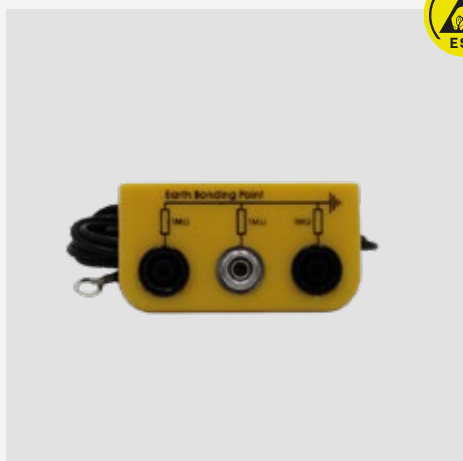

Order Code: EBP-5088

Inputs: 2 x banana + 2 x 10mm

Standard: EN 61340-5-1

Colour: 

This product is a connection point for earthing of desk and personnel equipment such as wristbands, desk mats, etc. developed to protect against the effects of electro-static discharge (ESD) caused by static electricity.

Under Table Earthing Terminal (2 x Banana + 10mm.)

Order Code: EBP-5008

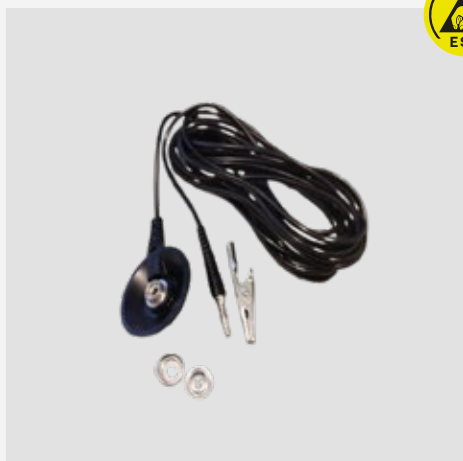

Dimensions: 70 x 38 x 24 mm.

Inputs: 2 banana sockets and 1 10mm stud input

Standard: EN 61340-5-1

Colour: 

L-shaped under table grounding terminal, 1Mohm. resistor supplied in ESD protected pink bag.

Grounding Cable (10mm male)

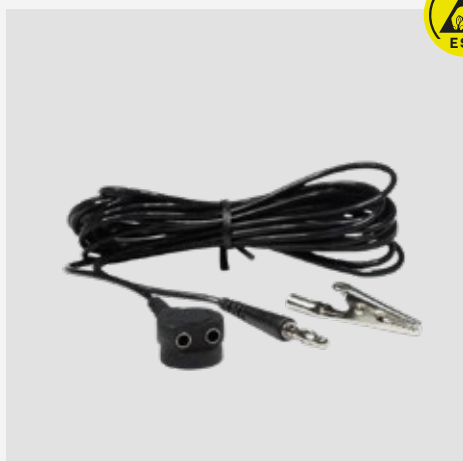

Order Code: GC-4009

Inputs: one end banana+crocodile and the other end 10mm male snap

Standard: EN 61340-5-1

Colour: 

The grounding cable is used to safely transfer antistatic and ESD floor coverings and table mats to the ground line. It includes a 10mm. female snap set that is nailed on the table covering.

Double Input Grounding Connection Cable

Order Code: DGC-4002

Dimensions: 3m

Inputs: 2 banana inputs

Standard: EN 61340-5-1

Colour: 

Cable end banana+crocodile. Used for connecting table coverings and bracelets to earth ground. 1 Mohm internal resistance.

Wired Wristband Under Desk Test Monitor

Order Code: WSM-4400

nonstat .com

Nonstat brand is registered with Atom Engineering, founded in 2004; It operates in the fields of ESD Antistatic Materials, Cleanroom Consumables and Production Equipment. We import from European and Far Eastern Countries through our official brand representatives and dealerships, and we provide supply, sales and after-sales services of ESD antistatic products in the domestic market within the scope of supporting Domestic Production.

Technical documents of ESD Antistatic products, which are supplied after being tested for compliance with EN 61340-5-1 standards, are created and archived under the supervision of our quality department.

Our experienced sales team helps you determine the most accurate need for your demands and provides the necessary technical information about the products. We aim to be more accessible and provide a higher quality service through our website. Within the scope of the quality management system we implement, we continue to grow and progress on this path that we set out in 2004, with our goals of continuous improvement and development in all our services.
